

## SHEELY LAUDS CHILD WELFARE SERVICES HERE

"One of the finest pieces of work being done in Adams County," declared Judge W. C. Sheely in describing the operation of the Adams County Child Welfare Services Tuesday evening at the conclusion of a panel discussion on foster home care at the annual dinner meeting of the welfare organization held at Redeemer's Reformed Church in Littlestown.

Judge Sheely, who served as moderator of the panel, urged the 65 persons present to enlist members in the county to meet the urgent need for more foster homes for children under child welfare service care. Miss Betty Livermore, director of the Child Welfare Services in the county, earlier in the evening had described the need for more foster homes as "desperate."

The panel discussion which highlighted the evening's program was participated in by Clark L. Peters, president of the Adams County Commissioners; Miss Livermore, and two foster parents, John Schwartz, of near Barlow, and John Mansberger of near York Springs.

Introducing the panel, Judge Sheely spoke of the importance to the court of the child welfare organization that dates from his early years on the bench here. Mr. Peters said the commissioners seek to aid the work in any way they can and said cooperation among the officials involved in the program here is at a new high. He commended the welfare staff and said the commissioners "try to do the best they can for the children."

In a discussion which followed the monthly board rate of \$20 set by the commissioners for boys and girls over 12 years of age was questioned. It is the lowest rate for any age group and was suggested as a possible reason for the difficulty in finding foster homes. Commissioners said the boarding rates paid here compare well with other counties in the state.

Miss Livermore described foster parents "as part of a team helping to advance the children toward a (Continued On Page 5)

## GIVE PARTY FOR POLIO PATIENT

A party in observance of his second birthday was held at the Hospital for Crippled Children at Elizabethtown today for Thomas Richard Roth, son of Mr. and Mrs. G. Henry Roth, 43 South St.

The child was stricken with infantile paralysis last August 7, and after a month at the Harrisburg Hospital, was removed to Elizabethtown where he has been under treatment ever since. He is to be fitted with a full-length brace for the left leg this week, and possibly may need a brace for the right leg. His left leg and arm were the most affected by the paralysis. It is not known how long he will have to remain confined to the hospital.

## HISTORIANS VISIT TAVERN AND OLD MILL

The ruins of a 150-year-old mill and the tavern where General Raynolds "didn't get much sleep" were visited by the Adams County Historical Society Tuesday evening in the first of two annual field trips.

Walter Rhodes, a descendant of Jacob Rhodes who completed the ancient mill system in 1820, served as guide for the tour of the Rhodes Mill site located on Middle Creek, west of the Gettysburg-Emmusbush Rd. about two miles north of Emmusbush.

First the historians visited the dam, the present one replacing at least two others constructed since the establishment of the first dam and mill in 1795. The earlier dams, washed out, Rhodes said, and were replaced after spring floods. The most recent dam, constructed about 40 or 50 years ago, has also "washed out" at one spot, since the mill burned and was abandoned about 20 years ago.

See Grinding Stones

At the dam the historians were shown the first mill grinding stone, made by hand from native rock, which was replaced more than a century ago, by a better millstone and the old one was used as part of the dam.

The historians followed the course of the "race" to the site of the sawmill—first of the four structures making up the mill. The sawmill, produced from 500 to 600 feet of lumber per day, Rhodes said. It originally had a seven-foot long "up and down" saw which cut one-fourth inch into the logs each time it was raised and lowered. Water power was used to operate the saw and the logs were rolled downhill from a race, across the race, to the sawmill. The sawmill was of log construction atop a stone foundation. The sawmill operated from 1795 until "about 20 years ago" Rhodes said.

Next was a mill used to grind flaxseed into oil. The two 4½ foot in diameter stones used to grind the seed are where they fell when the mill burned.

Visit Scene Of Raid

An overshoot wheel was used originally to power the "oil mill." That source of power later was replaced by a turbine. The still house, where whiskey was made and kept, was next to be "oil mill" and was the scene of a "raid" during the Civil War. Union soldiers, discovering the mill and still house, emptied it of its liquid contents. Rhodes said one soldier guarded the door to keep the (Continued on Page 2)

## SEMINARY WEEK IS OPENED BY HEIM LECTURE

Presenting the opening lecture of the 26th annual Seminary Week program of the Lutheran Theological Seminary in the Church of the Abiding Presence this morning, Dr. Ralph D. Heim, professor of Christian, Education and English Bible, gave ten answers to the question, "Why Don't They Know Their Bibles?" There were approximately 250 pastors and students present.

Dr. Heim based his answers on the findings in a research on "The Bible in the Literature for Christian Education," at seven-year study at the seminary completed in 1952.

"Such research reveals a need for wiser selection of Biblical materials which will be relevant to the needs of the pupils," Dr. Heim said. "Credibly, the most frequently used Bible verse is Matthew 6:33 which states, 'But seek first his kingdom and his righteousness and all these things shall be yours as well.' On the other hand, Davidic materials get almost as much attention as those about Paul, while the prophetic literature of the Old Testament and the New Testament epistles are neglected."

Should "Live" Bible

Better graduation and restricted quantity of Biblical material represent other answers to the problem. Utilization instead of memorization in both objective and procedure was the final answer stated by Dr. Heim. He said.

Heim said the real question should be, "Why don't they live their Bibles?"

Speaking on the subject, "The Goals of Biblical Studies," Dr. Ernest Colwell, dean of faculties at Emory University, Atlanta, Ga., opened the annual series of Zimmerman Lectures on Effective Preaching.

Dr. Colwell said the aim of seminarians should be to help young preachers to understand the Gospel, to relate the knowledge of the Bible, to learn to study it himself, and to be able to communicate it to others.

Attacking the uselessness of memorizing unrelated passages of Scripture Dr. Colwell said that some selection must be made and that some books should be relegated to collateral reading, rather than taking a "leisure drive through the Holy Scriptures."

"The Christian Gospel is crippled if the Christian Church's responsibility for a social ethic is not recognized," said Dr. Amos N. Widner, professor of New Testament in the Chicago Theological Seminary and in the Federated Theological Faculty of the University of Chicago, at 11 o'clock this morning.

He spoke on "The Social Gospel and the New Biblical Theology," the first of two lectures on the general topic concerning "Social Ethics and the New Testament."

Most of Dr. Widner's lecture dealt with the historical situation of the social gospel and its theological implications. "The social ethic of the Christian tradition," Dr. Widner indicated, "must base itself upon the Word of the Cross of Christ the Good News of God, and the Post-resurrection promise."

In his second lecture, at 11 o'clock Thursday morning, entitled "To Rev. Nevin Smith, Hanover, Russell Hackman, president of the club, presided, and Arthur Gordon introduced the individual members of the club and told briefly of their accomplishments through which they won their "letters" in sports and other extra-curricular activities.

## SHEELY LAUDS CHILD WELFARE SERVICES HERE

"One of the finest pieces of work being done in Adams County," declared Judge W. C. Sheely in describing the operation of the Adams County Child Welfare Services Tuesday evening at the conclusion of a panel discussion on foster home care at the annual dinner meeting of the welfare organization held at Redeemer's Reformed Church in Littlestown.

Judge Sheely, who served as moderator of the panel, urging the 65 persons present to enlist homes in the county to meet the urgent need for more foster homes for children under child welfare service care. Miss Bettie Livermore, director of the Child Welfare Services in the county, earlier in the evening had described the need for more foster homes as "desperate."

The panel discussion which highlighted the evening's program was participated in by Clark L. Petters, president of the Adams County Commissioners; Miss Livermore, and two foster parents, John Schwartz, of near Barlow, and John Mansberger of near York Springs.

Introducing the panel, Judge Sheely spoke of the importance to the court of the child welfare organization that dates from his early years on the bench here. Mr. Petters said the commissioners seek to aid the work in any way they can and aid cooperation among the officials involved in the program here is at a new high. He commended the welfare staff and said the commissioners "try to do the best they can for the children."

In a discussion which followed the monthly board rate of \$20 set by the commissioners for boys and girls over 12 years of age was questioned. It is the lowest rate for any age group and was suggested as a possible reason for the difficulty in finding foster homes. Commissioners said the boarding rates paid here compare well with other counties in the state.

Miss Livermore described foster parents "as part of a team helping to advance the children toward a

## HISTORIANS VISIT TAVERN AND OLD MILL

The ruins of a 150-year-old mill and the tavern where General Reynolds "didn't get much sleep" were visited by the Adams County Historical Society Tuesday evening in the first of two annual field trips.

Walter Rhodes, a descendant of Jacob Rhodes who completed the ancient mill system in 1820, served as guide for the tour of the Rhodes Mill site, located on Middle Creek, west of the Gettysburg-Emmitsburg Rd. about two miles north of Emmitsburg.

First the historians visited the dam, the present one replacing at least two others constructed since the establishment of the first dam and mill in 1796. The earlier dams washed out, Rhodes said, and were replaced after spring floods. The most recent dam, constructed about 40 or 50 years ago, has also "washed out" at one spot, since the mill burned and was abandoned about 20 years ago.

**See Grinding Stones**  
At the dam the historians were shown the first mill grinding stone, made by hand from native rock, which was replaced more than a century ago, by a better millstone and the old one was used as part of the dam.

The historians followed the course of the "race" to the site of the sawmill—first of the four structures making up the mill. The sawmill produced from 500 to 600 feet of lumber per day, Rhodes said. It originally had a seven-foot long "up and down" saw which cut one-fourth inch into the logs each time it was raised and lowered. Water power was used to operate the saw and the logs were rolled downhill from a road, across the race, to the sawmill. The sawmill was of log construction atop a stone foundation. The sawmill operated from 1796 until "about 20 years ago" Rhodes said.

Next was a mill used to grind flaxseed into oil. The two 4½ ft. in diameter stones used to grind the seed are where they fell when the mill burned.

**Visit Scene Of Raid**  
An overshoot wheel was used originally to power the "oil mill." That source of power later was replaced by a turbine. The still house, where whiskey was made and kept, was next to the "oil mill" and was the scene of a "raid" during the Civil War. Union soldiers, discovering the mill and still house, emptied it of its liquid contents. Rhodes said one soldier guarded the door to keep the

## SEMINARY WEEK IS OPENED BY HEIM LECTURE

Presenting the opening lecture of the 28th annual Seminary Week program of the Lutheran Theological Seminary in the Church of the Abiding Presence this morning, Dr. Ralph D. Heim, professor of Christian, Education and English Bible, gave ten answers to the question, "Why Don't They Know Their Bibles?" There were approximately 250 pastors and students present.

Dr. Heim based his answers on the findings in a research on "The Bible in the Literature for Christian Education," at seven-year study at the seminary completed in 1952.

"Such research reveals a need for wiser selection of Biblical materials which will be relevant to the needs of the pupils," Dr. Heim said. "Creditably, the most frequently used Bible verse is Matthew 6:33 which states, 'But seek first his kingdom and his righteousness and all these things shall be yours as well.' On the other hand, Davidic materials get almost as much attention as those about Paul, while the prophetic literature of the Old Testament and the New Testament epistles are neglected."

**Should "Live" Bible**  
Better gradation and restricted quantity of Biblical material represent other answers to the problem. Utilization instead of memorization in both objective and procedure was the final answer stated by Dr. Heim. He said.

Heim. He said the real question should be, "Why don't they live their Bibles?"

Speaking on the subject, "The Goals of Biblical Studies," Dr. Ernest Colwell, dean of faculties at Emory University, Atlanta, Ga., opened the Tuesday with three counts in connection with an attempted jail break Saturday night, signed pleas of guilty before Justice of the Peace Robert P. Snyder Tuesday afternoon and were held for sentencing in County Court. Both were returned to jail.

The two men had been charged with assault and battery, conspiracy to commit jail break and attempting to break jail. Sheriff Schultz said they were not in their cells when he made an inspection between 7:30 and 8 o'clock Saturday night, and were found by the sheriff and state police hiding in the cell of Ernest L. Haight, Lock Haven, Pa., serving a sentence for vagrancy.

Dederick, as spokesman for both men, denied the charge alleging that they threatened the life of Haight with a knife which Haight discovered in his cell, and Haight was brought from the jail to testify.

# CZECHS ADMITS RED PEACE PUSH IS PROPAGANDA

VIENNA, Austria (AP)—A Czechoslovak Communist magazine claimed today that talk of a Russian "peace offensive" is a lot of Western nonsense and that there is no change in Soviet policy.

Vienna diplomats said the unusual statement could be confirmation of the widespread Western belief that the Kremlin peace drive is only propaganda.

However, it also could be just a roundabout restatement of the usual Communist line that the Soviet Union and her allies always have sought peace and are the only nations with a consistent record as peace lovers and peace seekers.

Literární Noviny, a weekly publication for Czech Communist writers and artists, declared:

"Red Policy Unchanged"

"In the last six weeks, the press of the capitalist world and particularly the American press has been full of news that a change has taken place in Soviet foreign policy. There has been much written and spoken about a Soviet peace offensive and the busy, small-town journalists have drawn far-reaching and fantastic conclusions that the Soviet regime has embarked on a new course completely different than previously.

"This campaign reached its high point in the speech of President Eisenhower in which he demanded proof through deeds.

"This entire matter is only wishful thinking of the authors of this fantasy—the Soviet Union has never changed its foreign policy and has no need to change it."

# Red Troops Elude Patrols In Laos

HANOI, Indochina (AP)—French and Laotian patrols swept in a wide area around the royal residence city of Luangprabang in Laos today but failed to contact any Communist-led Vietnamese troops.

The calm on the Laos invasion fronts indicated the Vietnamese is awaiting fresh supplies and is regrouping its forces before making an onslaught on Luangprabang or Vientiane, the official capital.

Meanwhile the buildup of French-Laotian defenses continued at Vientiane, a town of 20,000 population across the Mekong River from Thailand.

The Thais have begun moving 60,000 Vietnamese, mostly of fighting age, from along the northern border deep into west and northwestern Thailand as a precaution against Communist invasion.

Wiser pointed out that J.R.C. is not a "money-making organization." All funds collected by J.R.C. each year are used for service projects here and for the benefit of youngsters in school abroad, in disaster areas and in support of the National Children's Fund. She stated that "through your continued support of the National Children's Fund it was possible for Junior Red Cross to go into immediate action in offering assistance to the children of the disaster-stricken areas of Western Europe. In a matter of days, the 60,000 gift boxes and 50 school chests were on their way." Adams County children this year have packed and sent 371 of these gift boxes and will send approximately 100 more by June 1.

Mrs. Maxwell D. Bucklew, executive secretary of the local Red Cross Chapter, told the Council about her visit to Indiantown Gap Military installation Tuesday. She said Gettysburg High School and New Oxford High School have tray favors and paper hats to be sent to the Hospital at Indiantown Gap for July 4, but after that all favors are to be sent to New Cumberland, according to current plans. For Thanksgiving 100 tray favors and paper hats will be needed at the latter post. East Berlin, New Oxford and Delone offered to make 35 favors each, and the paper hats will be designed and made by Biglerville, Littlestown and Gettysburg High Schools. Cookies will be needed from all schools for Christmas. Additional items may be requested when the Camp and Hospital Council meets next October. Mrs. Bucklew complimented the students on their "fine work" during the past year in preparing favors, scrapbooks, writing portfolios, toys, planters, afghans and cookies for servicemen, children and convalescents. Quantities of these items were on display Tuesday evening. Reports were given by members from each school on their projects of the year.

# Help On Clean-up

It was decided that the J.R.C. would again cooperate with Clean-up committees in their vicinity by distributing fly swatters. The students will call for these fly swatters at the local office. They will also enroll there for swimming classes which will start June 15.

Mrs. Bucklew told the group the "gamma-globulin story," stressing the vital importance of collection of blood not only for the fighting men in Korea, but now for the processing of this new weapon made of blood which is known to check the paralysis which so often accompanies polio. She asked them to appeal to their parents and friends over 18 to appear as blood donors on May 15, and to spread the information they had concerning the great need of blood for the protection of children who will be stricken with polio this summer.

The retiring president, Sylvia Warren, thanked the group for their cooperation while she has been in office. Refreshments were served by the Gettysburg High hosts.

"WITHOUT LIMITATION"

There is no limit to the love... that I contain for you... for it goes far above the realm... of things that we pursue... it soars beyond my wildest dreams... and fills my pounding heart... with overflowing ecstasy... that I long to impart... my love for you is great and strong... and words will never tell... how deep it penetrates my life... to hold me in its spell... at times it flies beyond the moon... where sacred things belong... and then again it surges forth... in sweet melodic song... my love for you... knows of no end... it goes on through the years... living through all happiness... all heartaches and all tears... yes, dear, my love for you instills... within me inspiration... that gives me thrills beyond compare... without a limitation.

HARRISBURG (P)—A bill to impose a graduated set of penalties for speeding according to the rate of speed was ready for House action today following its approval by the House Motor Vehicle Committee.

A person convicted of speeding under present law is subject to a \$10 fine regardless of the rate of speed over 50 miles per hour. The bill, approved by the committee yesterday, sets up this schedule of fines and license suspensions for first violators:

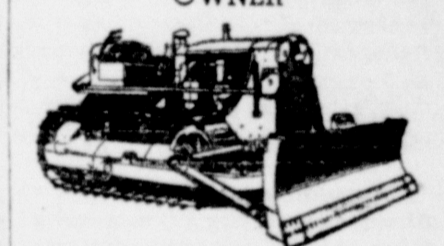

51-55 mph, \$10 and 10 days suspension; 56-60 mph, \$15 and 10 days suspension; 61-65 mph, \$20 and 15 days; 66-70, \$25 and 15 days; 71 mph and above, \$50 and 30 days.

Additional suspensions of from 30 to 90 days would be imposed on second offenders.

The bill was introduced last month by Reps. W. Mack Guthrie (R-Armstrong), Edward P. Young (R-Mercer), Ray W. Greenwood (R-Wyoming) and Reginald P. Stummel (R-Lehigh).

The broods of cicadas which appear each year do so in 17-year cycles, the different broods being numbered from 1 to 17 with the brood of 1936-1953-1970 being one of the latest.

**INTOLERANCE**  
Since childhood's happy point of view  
No difference sees in creed or prayer  
Of Catholic, Protestant or Jew.  
Who makes a little child aware?

At seven or eight a child will play  
With all with infinite delight.  
And not one word unkind will say  
Of any playmate, black or white.

Not till some grown-up plants the seed  
Of harsh intolerance to grow.  
Dwindle of any form of creed  
Will children to each other show.

This trouble world has made it plain.  
So long with cruel hatreds filled.  
The brotherhood we seek to gain  
Is ours—the grown-ups—task' to build.

# Today's Talk

By GEORGE MATTHEW ADAMS

**IDEAS AND ACTION**

We can have ideas galore, and dreams to match them, but without action they might as well not be at all. I came across an item in my newspaper recently, commenting upon statements by William H. Petit, vice president in charge of engineering for the Cary Multiplex Corp. He said that regardless of all the wonderful mechanical inventions to save men's time and energy, they would never replace man.

Mr. Petit said that the machine cannot originate action. Said he: "They can only do what they are told. There isn't a machine in existence that can originate an idea. There's no need to fear machines taking over, for the human mind will always be needed to give the machine the problem, push the button and read the answer."

Many of us can recall when labor opposed many of our labor-saving machines. They said that unemployment would result. Contrarywise, they increased employment and lessened arduous toil. There cannot be too many useful ideas introduced into the world. A man with ideas, that can be put to action, need never worry about a job. Jobs are praying for such!

A young man once called upon the late Joseph Pulitzer, the famous publisher of the old New York World. Asked what he could do, the young man said he wasn't sure, but that he had ideas. "Ideas!" cried the publisher. "Young fellow, if you have ideas I have a job for you at once."

Back of every useful machine and invention is not one, but many ideas, and no sooner is a new model created but what another is ready to take its place. Who can even predict the future of the automobile, the airplane, the streamlined railroad train, the movies, or TV? Ideas that keep moving are forever creating miracles!

Ideas move the world. They were history. Now, if someone will come forward with an idea that will forever outlaw all wars, he will have earned, and deserved, immortality!

Tomorrow Mr. Adams will talk on the subject: "Be All of a Piece"

# 8 Years Ago Americans And Russians Celebrated Great War Victory; Times Change

By DON WHITEHEAD (For James Marlow)

WASHINGTON (AP)—They seem almost incredible now those happy and exciting days eight years ago when Americans and Russians found it easy to be friends on the banks of the Mulde River in Germany. That was on the eve of the Nazi surrender May 7, 1945.

For a few days, there was no cloud of suspicion or distrust. Ivan and Joe found pleasure in each other's company. They had no trouble getting along.

They had met at the town of Torgau in the role of victors nearing the end of the long and bitter march into Germany. As far as these soldiers in the ranks were concerned, there was no reason why they shouldn't be friends. They accepted each other on even terms.

There on the Mulde, we correspondents watched them throw their arms about each other and whoop with delight. They toasted with champagne in beer mugs and talked in sign language when they couldn't fathom each other's spoken words. They exchanged invitations to parties and swapped gifts. They insisted they wanted to live at peace. And they meant it.

"Subtle Change"  
But then came a subtle change. The Russians who had been so friendly withdrew into a shell. The Russian officers—undoubtedly acting on orders from above—began to cut themselves and their men from association with the Americans. They gradually strangled the thriving spirit of friendship even while the world cheered the defeat of Hitler's hordes as the way to peace.

The show of friendship at first had extended even to the generals. Russia's Gen. Ivan S. Koniiev invited America's Gen. Omar Bradley to his headquarters for a feast. Tables were laden with caviar, sturgeon, mounds of other food, and carafes filled with vodka and wine. A soldiers' chorus sang magnificently—they even sang "Star Spangled Banner" and brought the American guests to their feet cheering.

Bradley returned the courtesy, laying on an American-style feast for Koniiev and members of his staff. The Americans weren't going to be outdone in hospitality.

Red War Maps A Secret  
Bradley has recounted how he took Koniiev into his war room and showed him the Allied might reflected on his maps. The Russian was treated as an ally.

Later Bradley told me: "The war was over so far as we were concerned. I didn't see any reason why he shouldn't see my war map." Then Bradley added wryly: "But Koniiev didn't show me his war map."

And so it was in many ways—some small and some large—that the Russians began to roll down their Iron Curtain. But no before the Russian soldiers had shown they were ready—if left alone—to

be friends with the Americans.

Many a Russian must have gone back home to tell his family and neighbors about those days of friendship. Ivan must sometimes wonder why peace with America seems so difficult when he found friendship with Americans so easy. That is the real tragedy of this eve of the eighth anniversary of victory in Europe.

Legislative reapportionment plans have not been carried out in Pennsylvania in the last 32 years, despite a constitutional requirement that it be done every 10 years.

McPherson Bill  
Senate reapportionment plans were submitted earlier in the session by Chairman Albert R. Pechan (R-Armstrong) of the Reapportionment Committee, and Sens. Donald P. McPherson (R-Adams) and Murray Peeler (R-Indiana). Numerous House redistricting plans are before that chamber in separate bills.

A flaw in Fleming's bill was spotted by a newsman after its introduction. No provision was made for Mifflin County. Fleming said the error in preparation of the bill would be righted in committee.

His authentic original plan, Fleming said is to remove Mifflin from Sen. George N. Wade's Cumberland-Perry-Juniata District and add it to the Clearfield-Centre District, now represented by Sen. A. H. Letzler.

One marked difference in the Fleming bill is that it would combine Lancaster and Lebanon Counties into one district. At present, part of Lancaster County is represented by Sen. Edward J. Kessler while the remainder, along with all of Lebanon County, has G. Graybill Diehm as its senator.

Break Local District  
Pechan's bill, submitted after consideration by the GOP Senate caucus, would abolish McPherson's Adams-Franklin District and Peeler's Indiana-Jefferson District.

McPherson and Peeler countered by introducing a bill to give Delaware and Montgomery Counties an extra senator but to preserve their own districts by making adjustments elsewhere in the state.

# STATE SENATE HAS 3 BILLS ON RE-DISTRICTING

HARRISBURG (AP)—A new Senate reapportionment bill adding a seventh senatorial district to Allegheny County joined two other redistricting plans in a Senate committee today.

Sponsored by Sen. Robert D. Fleming (R-Allegheny), the new measure introduced yesterday would also give Montgomery and Delaware Counties, with their mushrooming suburban Philadelphia populations, one new senator each. Each now have only one.

To accomplish these aims and still hold the Senate down to its constitutional limit of 50 members, two other districts would be broken up altogether and two others merged.

Numerous additional adjustments would be made in Northeastern and Western Pennsylvania under Fleming's plan.

Legislative reapportionment has not been carried out in Pennsylvania in the last 32 years, despite a constitutional requirement that it be done every 10 years.

McPherson and Peeler countered by introducing a bill to give Delaware and Montgomery Counties an extra senator but to preserve their own districts by making adjustments elsewhere in the state.

Fleming's bill, like Pechan's, goes away with McPherson's and Peeler's districts. It would give Franklin County to Sen. Fred P. Hare's Somerset-Bedford-Fulton District.

Adams County would go to Wade's Cumberland-Perry-Juniata District. Wade would lose Mifflin at the same time to Clearfield-Centre.

Abolition of Peeler's district would come about in this way:  
Other Changes  
Indiana would be joined to Armstrong County to break up Pechan's Armstrong-Butler District. Butler would be placed with Lawrence, to be taken from Sen. John P. Miller's Lawrence-Beaver District. Beaver would be left standing alone.

Jefferson, the other half of Peeler's district, meanwhile, would be placed with Cameron-Elk-Clinton, Forest and Clarion, now joined with the latter counties under Sen. George B. Stevenson (R-Clinton). It would be placed with the present Warren-Venango District of Sen. Leroy E. Chapman (R-Warren).

In Northern Pennsylvania, one senator would represent the remainder of counties now represented by Sens. James S. Berger (R-

## Just Folks

By EDGAR A. GUEST

**INTOLERANCE**  
 Since childhood's happy point of view  
 No difference sees in creed or prayer  
 Of Catholic, Protestant or Jew,  
 Who makes a little child aware?

At seven or eight a child will play  
 With all with infinite delight,  
 And not one word unkind will say  
 Of any playmate, black or white.

Not till some grown-up plants the seed  
 Of harsh intolerance to grow,  
 Disdain of any form of creed  
 Will children to each other show.

This trouble world has made it plain,  
 So long with cruel hatreds filled,  
 The brotherhood we seek to gain  
 Is ours—the grown-ups—task to build.

## Today's Talk

By GEORGE MATTHEW ADAMS

**IDEAS AND ACTION**

We can have ideas galore, and dreams to match them, but without action they might as well not be at all. I came across an item in my newspaper recently, commenting upon statements by William H. Pettit, vice president in charge of engineering for the Cary Multiplier Corp. He said that regardless of all the wonderful mechanical inventions to save men's time and energy, they would never replace man.

Mr. Pettit said that the machine cannot originate action. Said he: "They can only do what they are told. There isn't a machine in existence that can originate an idea. There's no need to fear machines taking over, for the human mind will always be needed to give the machine the problem, push the button and read the answer."

Many of us can recall when labor opposed many of our labor-saving machines. They said that unemployment would result. Contrariwise, they increased employment and lessened arduous toil. There cannot be too many useful ideas introduced into the world. A man with ideas, that can be put to action, need never worry about a job. Jobs are praying for such!

A young man once called upon the late Joseph Pulitzer, the famous publisher of the old New York World. Asked what he could do, the young man said he wasn't sure, but that he had ideas. "Ideas!" cried the publisher. "Young fellow, if you have ideas I have a job for you at once."

Back of every useful machine and invention is not one, but many ideas, and no sooner is a new model created but what another is ready to take its place. Who can even predict the future of the automobile, the airplane, the streamlined railroad train, the movies, or TV? Ideas that keep moving are forever creating miracles!

Ideas move the world. They write history. Now, if someone will come forward with an idea that will forever outlaw all wars, he will have earned, and deserved, immortality!

Tomorrow Mr. Adams will talk on the subject: "Be All of a Piece"

## 8 Years Ago Americans And Russians Celebrated Great War Victory; Times Change

By DON WHITEHEAD  
 (For James Marlow)

**WASHINGTON (AP)—**They seem almost incredible now those happy and exciting days eight years ago when Americans and Russians found it easy to be friends on the banks of the Mulde River in Germany. That was on the eve of the Nazi surrender May 7, 1945.

For a few days, there was no cloud of suspicion or distrust. Ivan and Joe found pleasure in each other's company. They had no trouble getting along.

They had met at the town of Torgau in the role of victors nearing the end of the long and bitter march into Germany. As far as these soldiers in the ranks were concerned, there was no reason why they shouldn't be friends. They accepted each other on even terms.

There on the Mulde, we correspondents watched them throw their arms about each other and whoop with delight. They toasted with champagne in beer mugs and talked in sign language when they couldn't fathom each other's spoken words. They exchanged invitations to parties and swapped gifts. They insisted they wanted to live at peace. And they meant it.

**"Subtle Change"**  
 But then came a subtle change. The Russians who had been so friendly withdrew into a shell. The Russian officers—undoubtedly acting on orders from above—began to cut themselves and their men from association with the Americans. They gradually strangled the thriving spirit of friendship even while the world cheered the defeat of Hitler's hordes as the way to peace.

The show of friendship at first had extended even to the generals. Russia's Gen. Ivan S. Koniev invited America's Gen. Omar Bradley to his headquarters for a feast. Tables were laden with caviar, sturgeon, mounds of other food, and carafes filled with vodka and wine. A soldiers' chorus sang magnificently—they even sang the "Star Spangled Banner" and brought the American guests to their feet cheering.

Bradley returned the courtesy, laying on an American-style feast for Koniev and members of his staff. The Americans weren't going to be outdone in hospitality.

**Red War Maps A Secret**  
 Bradley has recounted how he took Koniev into his war room and showed him the Allied map reflected on his maps. The Russian was treated as an ally.

Later Bradley told me: "The war was over so far as we were concerned. I didn't see any reason why he shouldn't see my war map." Then Bradley added wryly: "But Koniev didn't show me his war map."

And so it was in many ways—some small and some large—that the Russians began to roll down their Iron Curtain. But not before the Russian soldiers had shown they were ready—if left alone—to

be friends with the Americans. Many a Russian must have gone back home to tell his family and neighbors about those days of friendship. Ivan must sometimes wonder why peace with America seems so difficult when he found friendship with Americans so easy.

That is the real tragedy of this eve of the eighth anniversary of victory in Europe.

## STATE SENATE HAS 3 BILLS ON RE-DISTRICTING

**HARRISBURG (AP)—**A new Senate reapportionment bill adding a seventh senatorial district to Allegheny County joined two other redistricting plans in a Senate committee today.

Sponsored by Sen. Robert D. Fleming (R-Allegheny), the new measure introduced yesterday would also give Montgomery and Delaware Counties, with their mushrooming suburban Philadelphia populations, one new senator each. Each now have only one.

To accomplish these aims and still hold the Senate down to its constitutional limit of 50 members, two other districts would be broken up altogether and two others merged.

Numerous additional adjustments would be made in Northeastern and Western Pennsylvania under Fleming's plan.

Legislative reapportionment has not been carried out in Pennsylvania in the last 32 years, despite a constitutional requirement that it be done every 10 years.

**McPherson Bill**  
 Senate reapportionment plans were submitted earlier in the session by Chairman Albert R. Pechan (R-Armstrong) of the Reapportionment Committee, and Sens. Donald P. McPherson (R-Adams) and Murray Peel (R-Indiana).

Numerous House redistricting plans are before that chamber in separate bills.

A flaw in Fleming's bill was spotted by a newsman after its introduction. No provision was made for Mifflin County. Fleming said the error in preparation of the bill

## Limping Yankees Blast Indians 11-1 And Return To League Lead; Boston Climbs To Third Place

By BEN PHLEGAR  
AP Sports Writer

Until last night the Cleveland Indians hadn't met the New York Yankees this season. Today they were wishing they had let well enough alone.

The Yankees limped into Cleveland yesterday feeling mighty low. They were at the end of a rough six-game Western road trip during which they had had to scramble to break even against second division teams. Their pitching staff was shot. The hitters were hitters in name only.

The clubs were tied for the league lead. This was the big chance for Cleveland to take over. At least that's the way it looked to the Indians fans.

Chaos In 4th

Well, the Indians blew it, but good. They got whopped 11-1. It was their worst licking this season. Bob Lemon, Cleveland's best, dueling Whitey Ford, Casey Stengel's desperation hope, on even terms for three innings. Then came chaos.

Thirteen Yankees went to bat in the fourth. Seven of them singled, two walked, one got hit and eight scored. While the New Yorkers were still parading monotonously to the plate, Lemon was taking a shower. He had falled for the second straight time.

Boston Is Third

Just to make sure that it wouldn't be close, the Yankees added three more runs in the fifth inning on a pair of singles and two walks. These were strictly unnecessary since the Indians couldn't do a thing with Ford until Whitey Westlake came through with a bases-empty home run in the eighth.

So the Indians, who went into the one-game series in an exact percentage tie with the Yankees, came out trailing by a big game and a half—the Yanks have played and won three more games—and with the onrushing Boston Red Sox only half a game back in third place.

Boston took over third by whipping the Chicago White Sox, 5-1, while the Philadelphia Athletics were succumbing to Virgil Trucks and the St. Louis Browns, 2-1, in the other night games in the American League. The A's, who had been third, slipped to fourth.

Senators Blast Detroit

Washington blasted Detroit, 14-4, in the only day game although each club got 16 hits.

R.A.N. washed out the entire National League program.

Boo Porterfield of the Senators lost seven games on shutouts last season. Yesterday he helped make sure he would get some runs in at least one of his games this year. Coming to bat with the bases loaded, the Washington right-hander slammed his first major league home run. The blow was the big one although the Senators got 15 other hits off Bill Wright and four other Tiger hurlers. Porterfield himself gave up 16, about his usual quota for two full games.

Fourth For Parnell

Mel Parnell of the Red Sox won his fourth straight without a loss, the best record in either league, as he scattered five Chicago hits. The White Sox scored only in the ninth when Jim Rivera singled home Sam Mele who had tripled.

Vic Wertz of the Browns took over the home run lead in the American League as he hit his fifth of the year with one man on base. The two runs were all Trucks needed to post his third victory against one loss as he bested young Harry Byrd of the A's in an errorless game.

## Hit And Run Tactics Expected Of Walcott

By The Associated Press

CHICAGO (P)—The suspicion is growing that Jersey Joe Walcott will fit through the greatest boxing ballet of his career in his attempt to dethrone Heavyweight Champion Rocky Marciano.

It was with the disdain and pride of a champion that Walcott waded into an upstart Marciano at Philadelphia last September in a tremendously thrilling bout that ended in a stunning 13th round knockout of Jersey Joe.

Now Jersey Joe knows differently. Rocky can be hit but not hurt.

He won't say so, but everything about his preparation for his May 15 return bout with Marciano at Chicago Stadium indicates that Walcott is ready to hit and run—as only this remarkable ring ancient knows how.

## Showers Wipe Out Scholastic Games

Biglerville had originally planned to meet York Springs today in a playoff of another postponement but the game was moved back until Friday while a Cammer exhibition tilt with East Berlin listed for Friday was re-carded for next Monday.

## "Praying Colonels" Director Succumbs

By The Associated Press

ALGONQUIN, Ill. (P)—Robert L. Myers, director of athletics at Centre College when the Little Kentucky school's "Praying Colonels" football team gained national grid recognition, died last night.

Myers, who was director of athletics at Centre in Danville, Ky., from 1916 to 1925, had been in ill health for the last several weeks. He came to Algonquin, a Chicago suburb, on April 1 to live with his son, leaving his post as director of athletics at Trinity University, San Antonio, Tex.

Myers was responsible for bringing to Centre one of its most famed football players, the late Alvin N. "Bo" McMillin, who was quarterback on the "Praying Colonels" in 1921 when they upset the favored Harvard team. Charley Moran was Centre's grid coach, named to the post by Myers.

happy, healthy adulthood." She said the foster homes provide the day-to-day physical care and character training. "We are continually amazed at the changes wrought for our children by good care. Our foster parents teach by explanation, discipline and example and do an able job of carrying the ball. They are doing miracles with love."

Foster Parents Speak

Mrs. Schwartz told of the two foster children now in her home. She said she and her husband became foster parents out of a desire to help someone and help train respectable citizens as our contribution toward a better world tomorrow.

Mr. Mansberger, who has a foster son, said: "If anyone is looking for a good piece of missionary work, you've got it right here." He listed the first requirements for foster parents. "By doing good for the children, you'll be getting blessings for yourselves," Mr. Mansberger concluded.

A dozen representatives of the 28 foster homes in the county attended the meeting and were introduced. Special recognition was given these parents who have had foster children in their homes for 10 years or more: Mr. and Mrs. John Knox, 12 years; Mr. and Mrs. Russell Munmer, 12 years; Mr. and Mrs. Norman Plank, 13 years; Mr. and Mrs. Grover Smith, 14 years; Mrs. Harry Spangler, 13 years; Mr. and Mrs. Norman Starnes, 10 years; and Mrs. Joseph Straubach, 12 years.

Gift For Long Service

Miss Lavmore presented Mrs. Grover Smith with a blooming plant as the foster mother present with longest record of service to the child welfare organization.

C. C. Culp, Gettysburg, chairman of the advisory committee, presided at the dinner session. The invocation was given by the pastor of the host church, the Rev. Frank Reynolds. Mr. Culp spoke of the growth of the child welfare service here and said it is now held up as an example in many parts of the state. He introduced County Commissioners Fetters, Karl Smith and G. Ed. Taubman; Miss Babette Blumenthal, Carlisle, state field supervisor; Miss Helen Hubbell, Harrisburg, chief of the division of rural child welfare; Miss Lavmore; Mrs. Daniel A. Faddock, county visitor, and Miss Mary C. Frazer, secretary. He announced plans for special observance of the welfare services' 15th anniversary here next year.

The Rev. Amos W. Geigley, veteran member of the advisory committee, said the citizens' advisory board, the commissioners and the court share in responsibility for the success of the child welfare work here. He paid special tribute to Miss Elsie Robertson, first child welfare worker here, and to the present staff. He emphasized the "stock we have in Adams County's future and the moral and spiritual welfare of its children."

Members of the child welfare advisory committee of 13 who were present were introduced by Mr. Culp.

## BELMONT PARK SPRING SESSION OPENS TODAY

(Continued from Page 1)

NEW YORK (P)—Belmont Park, a gold mine with horses, opens its 37-day spring meeting today, expecting a 35,000 turnout for the 60th running of the Toboggan Handicap.

The top event of the meeting will be the \$100,000 Belmont Stakes which along with the Kentucky Derby and the Preakness forms racing's triple crown. The Belmont at a mile and a half will be run June 13.

Besides the Belmont and the Toboggan, there will be 13 other stakes on the flat and another six for jumpers with a total of almost a half million dollars earmarked for distribution.

This program also provides the first serious racing of the season for two-year-olds, along with the Acorn and Coaching Club American Oaks, two highly important stakes for fillies. The Acorn with \$25,000 in the pot is slated for Saturday.

The Greentree Stable's Tom Fool, carrying an impost of 130 pounds, heads a field of 13 named for the Toboggan, a six-furlong sprint down the Widener chute. Ted Atkinson will be in the saddle and in his words, Tom Fool has become an "adult horse" recently.

children receiving care, an increase of 26 in the last year. Forty-eight are in foster homes, one in a free home, two in adoptive homes, one in a wage foster home, seven in the homes of relations, 66 in their parents' homes and five in institutions. Recently revised boarding rates for foster homes range from \$35 a month for children up to three years of age down to \$20 a month for boys and girls over 12 years of age.

Mr. Fetters explained that services of children over 12 years of age are considered of some value by the commissioners but parents pointed out the children have limited time to help, require allowances or expect to be paid for their services.

During that discussion Judge Sheely pointed out that a child committed to an institution costs the county \$60 to \$90 a month. Welfare work here for 130 children cost the county \$16,413 and the state \$6,123 last year.

Mrs. Henry T. Bream discussed the "children's bills" pending at Harrisburg and traced their origin back to the Mid Century White House Conference and urged countians to work for the passage of these measures. Girl Scouts of St. Francis Xavier Church were thanked for the place cards, the Ladies' Aid of the host church for the ham dinner and the committee on arrangements headed by Mrs. Wilbur Miller.

When the royal regalia, crown and jewels of the British sovereign were recreated after the restoration, they cost about \$159,900.

Red Targets Near Yalu Are Bombed

SEOUL 4P — U. S. Thunderjets swept almost to the Yalu River boundary of North Korea today and debombed at least 17 major buildings at the abandoned Kangge Dam.

Sabre jet fighters flew escort for the 36 Thunderjets in one of the war's deepest fighter-bomber penetrations of North Korea.

The Thunderjets blasted buildings used by the Reds to store supplies and shot up a rail line but did not bomb the partially completed dam, on which work was abandoned when the war began, the Air Force said.

The 155-mile battlefront remained quiet. Only light patrol contacts were reported.

Navy warships and carrier-based planes pounded the battered east coast port of Wonsan throughout the day Tuesday.

## Limping Yankees Blast Indians 11-1 And Return To League Lead; Boston Climbs To Third Place

By BEN PHILEGAR  
AP Sports Writer

Until last night the Cleveland Indians hadn't met the New York Yankees this season. Today they were wishing they had let well enough alone.

The Yankees limped into Cleveland yesterday feeling mighty low. They were at the end of a rough six-game Western road trip during which they had had to scramble to break even against second division teams. Their pitching staff was shot. The hitters were hitters in name only.

The clubs were tied for the league lead. This was the big chance for Cleveland to take over. At least that's the way it looked to the Indian fans.

### Chaos In 4th

Well, the Indians blew it, but good. They got whopped 11-1. It was their worst licking this season. Bob Lemon, Cleveland's best, dueling Whitely Ford, Casey Stengel's desperation hope, on even terms for three innings. Then came chaos.

Thirteen Yankees went to bat in the fourth. Seven of them singled, two walked, one got hit and eight scored. While the New Yorkers were still parading monotonously to the plate, Lemon was taking a shower. He had failed for the second straight time.

### Boston Is Third

Just to make sure that it wouldn't be close, the Yankees added three more runs in the fifth inning on a pair of singles and two walks. These were strictly unnecessary since the Indians couldn't do a thing with Ford until Wally Westlake came through with a bases-empty home run in the eighth.

So the Indians, who went into the one-game series in an exact percentage tie with the Yankees, came out trailing by a big game and a half—the Yanks have played and won three more games—and with the onrushing Boston Red Sox only half a game back in third place.

Boston took over third by whipping the Chicago White Sox, 5-1, while the Philadelphia Athletics were succumbing to Virgil Trucks and the St. Louis Browns, 2-1, in the other night games in the American League. The A's, who had been third, slipped to fourth.

### Senators Blast Detroit

Washington blasted Detroit, 14-4, in the only day game although each club got 16 hits.

Rain washed out the entire National League program.

Bob Porterfield of the Senators lost seven games on shutouts last season. Yesterday he helped make sure he would get some runs in at least one of his games this year. Coming to bat with the bases loaded, the Washington right-hander slammed his first major league home run. The blow was the big one although the Senators got 15 other hits off Bill Wright and four other Tiger hurlers. Porterfield himself gave up 16, about his usual quota for two full games.

### Fourth For Parnell

Mei Parnell of the Red Sox won his fourth straight without a loss, the best record in either league, as he scattered five Chicago hits. The White Sox scored only in the ninth when Jim Rivera singled home Sam Mele who had tripled.

Vic Wertz of the Browns took over the home run lead in the American League as he hit his fifth of the year with one man on base. The two runs were all Trucks needed to post his third victory against one loss as he bested young Harry Byrd of the A's in an errorless game.

## 1ST TURN BUMP COST DANCER DERBY VICTORY

NEW YORK (P)—Native Dancer would have won the Kentucky Derby if he hadn't been bumped on the first turn, Jockey Eric Guerin insisted today, adding that the collision with Money Broker "didn't look like an accident to me."

Al Popara was up on Money Broker, who barged into the Dancer early in the race.

"I could see what was in the boy's mind," said Guerin. "I could see it coming and he hit me. What was I supposed to do?"

But Popara, who is riding at Churchill Downs, was quick to deny he bumped the Dancer intentionally.

"I'm sorry about the whole thing," he said in Louisville. "It is possible the bumping kept Native Dancer from winning, but when you have a string of victories, racing luck is bound to catch up with you."

"There were a lot of horses together when we hit the turn and I couldn't get back of Guerin's horse, so I tried to circle the Dancer. I actually thought I had cleared Native Dancer, but my horse changed stride and I heard Guerin yell."

Guerin said that the Dancer would have won by five lengths if he had run his usual race. As it was Dark Star beat Guerin's mount by a head and was running out of steam as fast as the Dancer was making up ground at the wire.

Are Worth \$375,000

OCEANPORT, N. J. (P)—The eighteen stake races at this summer's session of Monmouth Park Race Track will be worth \$375,000, an increase of \$70,000 over last year.

This was announced yesterday by Amory L. Haskell, track president. The most valuable stake race will be the \$50,000 Monmouth Oaks, a mile and a furlong sprint for three-year-old fillies on Aug. 8.

The figure on this race is \$30,000 above what it was last year, and is expected to draw some of the nation's leading horses. The distance on the Oaks was increased by one-sixteenth of a mile.

The track season runs from June 13 to Aug. 10.

### Kump Making Good In Class A League

Ronnie Kump, Cashtown, who has been a member of the St. Louis Cardinals' baseball organization for several years, has been turning in fine performances for the Columbus, Ga., team of the Class A South Atlantic League.

Three of the first five victories won by Columbus were credited to Kump, a stocky 170-pound right-handed hurler. During his last 21 innings he has not allowed an earned run.

Kump starred at Gettysburg High School and later played with Allentown, a member of the Cardinal chain. This year he was promoted to Columbus.

## Hit And Run Tactics Expected Of Walcott

By The Associated Press

CHICAGO (P)—The suspicion is growing that Jersey Joe Walcott will flit through the greatest boxing ballet of his career in his attempt to dethrone Heavyweight Champion Rocky Marciano.

It was with the disdain and pride of a champion that Walcott waited into an upstart Marciano at Philadelphia last September in a tremendously thrilling bout that ended in a stunning 13th round knockout of Jersey Joe.

New Jersey Joe knows differently. Rocky can be hit but not hurt.

He won't say so, but everything about his preparation for his May 15 return bout with Marciano at Chicago Stadium indicates that Walcott is ready to hit and run—as only this remarkable ring ancient knows how.

happy, healthy adulthood." She said the foster homes provide the day-to-day physical care and character training. "We are continually amazed at the changes wrought for our children by good care. Our foster parents teach by explanation, discipline and example and do an able job of carrying the ball. They are doing miracles with love."

Foster Parents Speak  
Mrs. Schwartz told of the two foster children now in her home. She said she and her husband became foster parents out of a desire "to help someone and help train respectable citizens as our contribution toward a better world tomorrow."

Mr. Mansberger, who has a foster son, said: "If anyone is looking for a good piece of missionary work, you've got it right here." He listed love of children and patience as the first requirements for foster parents. "By doing good for the children, you'll be getting blessings for yourselves," Mr. Mansberger concluded.

A dozen representatives of the 28 foster homes in the county attended the meeting and were introduced. Special recognition was given these parents who have had foster children in their homes for 10 years or more: Mr. and Mrs. John Knox, 12 years; Miss Pauline Miller, 11 years; Mr. and Mrs. Russell Mumert, 12 years; Mr. and Mrs. Norman Plank, 13 years; Mr. and Mrs. Grover Smith, 14 years; Mrs. Harry Spangler, 13 years; Mr. and Mrs. Norman Starnes, 10 years; and Mrs. Joseph Strausbaugh, 12 years.

### Gift For Long Service

Miss Livermore presented Mrs. Grover Smith with a blooming plant as the foster mother present with longest record of service to the child welfare organization.

C. C. Culp, Gettysburg, chairman of the advisory committee, presided at the dinner session. The invocation was given by the pastor of the host church, the Rev. Frank Reynolds. Mr. Culp spoke of the growth of the child welfare service here and said it is now held up as an example in many parts of the state. He introduced County Commissioners Petters, Karl Smith and G. Ed. Taughnbaugh; Miss Babette Blumenthal, Carlisle, state field supervisor; Miss Helen Hubbell, Harrisburg, chief of the division of rural child welfare; Miss Livermore; Mrs. Daniel A. Paddock, county visitor, and Miss Mary C. Frazer, secretary. He announced plans for special observance of the welfare services' 15th anniversary here next year.

The Rev. Amos W. Geigley, veteran member of the advisory committee, said the citizens' advisory board, the commissioners and the court share in responsibility for the success of the child welfare work here. He paid special tribute to Miss Elsie Robertson, first child welfare worker here, and to the present staff. He emphasized the "stock we have in Adams County's future and the moral and spiritual welfare of its children."

### 130 Receive Care

Members of the child welfare advisory committee of 13 who were present were introduced by Mr. Culp.

Mimeographed programs and annual reports distributed to 65 countians in attendance showed the child welfare unit now has 130

# HELL'S CANYON D A M DROPPED

WASHINGTON (AP) — The Eisenhower administration has decided to sidetrack public in favor of private development of a big Western water project.

Secretary of the Interior McKay, making the announcement yesterday, said the Eisenhower administration will allow private enterprise to develop hydroelectric power wherever possible so long as it does not interfere with "proper development of natural resources."

McKay told a news conference he has decided to set aside, at least for the present, plans for a \$60 million dollar federal dam at Hell's Canyon along the Oregon-Idaho border. The department, he said, will no longer oppose a substitute proposal by the privately owned Idaho Power Company to build for 23 million dollars the first of three dams on the Snake River in the same area.

He added that each similar case in the future should be considered "on its own merits." His decision had been widely regarded as a keystone of the administration position in the public vs. private power debate, but McKay said he did not

# Ohio Company May Move To Gettysburg

The possibility of opening a branch plant in Gettysburg is being considered by Youngstown Manufacturing Inc. of Youngstown, Ohio, according to a letter received by the Gettysburg Chamber of Commerce.

"We are interested in approximately 16,000 square feet, on one floor, and a clear span of at least 25 feet by 80 feet would be required to house machinery for a portion of our operation," said a letter to Mrs. Helen L. Snyder, chamber secretary.

The company also asked information on labor supply and rates for unskilled and semi-skilled workers, and said the business would require 250 to 300 persons at the beginning for steady employment.

"You are aware of the incentives offered by some cities to obtain new plants, and if your city, or any group, is able to offer such incentives, we would appreciate detailed information," the letter said.

# Garment Workers Given New Policies

The management of the Standard Garment Co. plants in Gettysburg and New Oxford announced at recent meetings of employees a group insurance plan of coverage written for each employee.

The policies will insure employees for both accident and health 24 hours a day, whether at home or at work, according to L. C. Marley, an official of the dress company.

Life insurance and accidental death are also covered, and policies provide for hospital bills and expenses caused by injury or illness, and in maternity cases.

regard his action as fixing a policy.

# STRATOCRUISER BRINGS 38 HOME

HONOLULU (AP)—A giant C-97 Stratocruiser carrying 38 sick and wounded lighting men home from Communist prison camps took off last night for California.

The big plane is due at Travis Air Force Base, 40 miles northeast of San Francisco, at 11 a. m. (1 p. m., EST) today.

The departure from Hickam Air Force Base here was quiet and without fanfare.

The 38 repatriates were flown here in two planes from Tokyo. Thirty-two hurried aboard the Stratocruiser. Medical corpsmen ran up the ramp with six litter patients. All were aboard within 10 minutes.

The men wore wilted floral leis, mementos of their brief stopover in Hawaii.

The last of three planes taking part in this final Freedom Airlift landed here last night from Tokyo. It carried 12 U. S. repatriates, 2 Canadians and 6 Colombians.

# Roaming Dogs Cause Much Damage Here

Chief of Police Jack Bartlett today called on all residents to keep their dogs in check and prevent their roaming in bands through the community and adjacent areas.

The latest request came following a report to borough police Monday afternoon that two dogs

attacked a pet rabbit at the home of Dr. Roy W. Gifford on Oak Ridge and "skinned the rabbit alive," according to police. The animals were driven off before the could get at six baby rabbits in a hutch, after killing the mother rabbit.

The report is one of many concerning depredations by dogs, Chief Bartlett said. He added that "it is particularly discouraging to home owners at the present time, when they are trying to clean up, paint up and fix up their properties in connection with clean-up week, to find dogs running at large and destroying or damaging property."

Chile is about 100 miles wide on the average.

# HELL'S CANYON DAM DROPPED

WASHINGTON (AP)—The Eisenhower administration has decided to scrap the public in favor of private development of a big Western water project.

Secretary of the Interior McCarver, making the announcement yesterday, said the Eisenhower administration will allow private enterprise to develop hydroelectric power wherever possible so long as it does not interfere with "proper development of natural resources."

McCarver told a news conference he has decided to set aside, at least for the present, plans for a \$60 million federal dam at Hell's Canyon along the Oregon-Idaho border. The department, he said, will no longer oppose a substitute proposal by the privately owned Idaho Power Company to build for \$3 million dollars the last of three dams on the Snake River in the same area.

He added that each similar case in the future should be considered "on its own merits." His decision had been regarded as a key to the administration position in the public vs. private power debate, but McCarver said he did not

# Ohio Company May Move To Gettysburg

The possibility of opening a branch plant in Gettysburg is being considered by Youngstown Manufacturing Inc. of Youngstown, Ohio, according to a letter received by the Gettysburg Chamber of Commerce.

"We are interested in approximately 16,000 square feet, on one floor, and a clear span of at least 25 feet by 80 feet; would be required to house machinery for a portion of our operation," said a letter to Mrs. Helen L. Snyder, chamber secretary.

The company also asked information on labor supply and rates for unskilled and semi-skilled workers, and said the business would require 250 to 300 persons at the beginning for steady employment.

"You are aware of the incentives offered by some cities to obtain new plants, and if your city, or any group, is able to offer such incentives, we would appreciate detailed information," the letter said.

# Garment Workers Given New Policies

The management of the Standard and Garment Co. plants in Gettysburg and New Oxford announced at recent meetings of employees a group insurance plan of coverage written for each employee.

The policies will insure employees for both accident and health 24 hours a day, whether at home or at work, according to L. C. Marley, an official of the dress company.

Life insurance and accidental death are also covered, and policies provide for hospital bills and expenses caused by injury or illness, and in maternity cases.

Marley said his action as fixing a policy.

# STRATOCRUISER BRINGS 38 HOME

HONOLULU (AP)—A giant C-97 Stratocruiser carrying 38 sick and wounded fighting men home from Communist prison camps took off last night for California.

The big plane is due at Travis Air Force Base, 40 miles northeast of San Francisco, at 11 a. m. (C. S. T.) today.

The departure from Hickam Air Force Base here was quiet and without fanfare.

The 38 repatriates were flown here in two planes from Tokyo. Thirty-two hurried aboard the Stratocruiser. Medical corpsmen ran up the ramp, with six litter patients. All were aboard within 10 minutes.

The men wore wilted floral leis, mementos of their brief stopover in Hawaii.

The last of three planes taking part in this final Freedom Airlift landed here last night from Tokyo. It carried 12 U. S. repatriates, 2 Canadians and 6 Colombians.

# Roaming Dogs Cause Much Damage Here

Chief of Police Jack Bartlett today called on all residents to keep their dogs in check and prevent their roaming in bands through the community and adjacent areas.

The latest request came following a report to borough police Monday afternoon that two dogs

attacked a pet rabbit at the home of Dr. Roy W. Gifford on Oak Ridge and "skinned the rabbit alive," according to police. The animals were driven off before the could get at six baby rabbits in a hutch, after killing the mother rabbit.

The report is one of many concerning depredations by dogs, Chief Bartlett said. He added that "it is particularly discouraging to home owners at the present time, when they are trying to clean up, paint up and fix up their properties in connection with clean-up week, to find dogs running at large and destroying or damaging property."

Chile is about 100 miles wide on the average.

### HOW TO PLANT A GARDEN

... It has been said that gardening in one of the finest methods of exercising known to man... Why they didn't include the fairer sex in this statement, is beyond me... because the ladies usually end up finishing the lovely garden the old man started, anyhow. With the first sign of spring, the husband, (who up to now has been forced to take his exercise pushing himself up from the chair to adjust the television knobs) awakens from his lethargic sleep and decides it is time to plant THE garden. How does he know this? He has been reading magazines, inspecting seed catalogues sent to him by his mother-in-law, and noticing his neighbor helping with the spring cleaning.

His first impulse is to run away, never to return again, but he stifles his innermost feelings due to three facts that he is destined to play poker this Thursday with the boys and of he runs away, he will miss this chance to get his money back!

The man of the house then declares that "he is going to plant the prettiest garden you-ever-did-see." This is usually followed by guffaws of laughter from the women, who remember this lazy lout from last year. With an "all-right-I'll-show-you" attitude, the lounge lizard retires to the cellar to check on the tools he will need for the coming battle.

Inspection of the tools leads him to believe he will need about thirty dollars to replenish his lost supply. (They are really next door. His friendly neighbor borrowed them last year.) Mr. Gardener then hies himself down to the hardware store to make his purchases. After three or four hours he returns sans tools. It seems that Mr. Hardware and he become so interested in the Yankees' chances to take pennant this year, that he completely forgot what he came for. Another trip to the hardware store usually takes from three and four more weeks.

By this time, the little woman who has nothing to do all day—except feed the kids, wash clothes, make three meals, clean house, iron and talk to salesmen—decides that SHE will start the garden herself... as she has waited long enough for "Mr. Burbank" to get to work. She weeds the garden, cuts the grass, plants the seed, tills the ground, notes that bale, lifts that load—until one fine day the back yard looks very beautiful with flowers blooming all over the place...

While she is down on her hands and knees, weeding, you can see that her "green thumb" is now reddened and sore from the excessive labor. Mr. "Gardener" can be seen leaning over the back fence telling his neighbor how hard he worked to make this back yard what it is today... Oh yes, you can write to him if you want any advice on gardening. His address is: City Hospital, Town. He is expected to recover from the horrible beating he received from the flat part of a shovel... And you can still see the marks on his face where the rake passed over his nose... See you next week. H. H.

## York Springs Lions Hosts To Athletes

One hundred York Springs Lions and their guests gathered at the York Springs Fire Hall on Tuesday evening to honor 15 high school lettermen. A ham dinner was served by the Women's Auxiliary of the Fire Company.

### HOW TO PLANT A GARDEN

It has been said that gardening is one of the finest methods of exercising known to man. Why they didn't include the fairer sex in this statement, is beyond me. Because the ladies usually end up finishing the lovely garden the old man started, anyhow. With the first sign of spring, the husband, (who up to now has been forced to take his exercise pushing himself up from the chair to adjust the television knobs) awakens from his lethargic sleep and decides it is time to plant THE garden. How does he know this? He has been reading magazines, inspecting seed catalogues sent to him by his mother-in-law, and noticing his neighbor helping with the spring cleaning.

His first impulse is to run away, never to return again, but he stifles his innermost feelings due to the fact that he is destined to play poker this Thursday with the boys and if he runs away, he will miss this chance to get his money back!

The man of the house then declares that "he is going to plant the prettiest garden you ever did see." This is usually followed by guffaws of laughter from the women, who remember this lazy lout from last year. With an "all-right-I'll-show-you" attitude, the lounge lizard returns to the cellar to check on the tools he will need for the coming battle.

Inspection of the tools leads him to believe he will need about thirty collars to replenish his lost supply. (They are really next door. His friendly neighbor borrowed them last year.) Mr. Gardener then has himself down to the hardware store to make his purchases. After three or four hours he returns sans tools. It seems that Mr. Hardware and he become so interested in the Yankee's chances to take pennant this year, that he completely forgot what he came for. Another trip to the hardware store usually takes from three and four more weeks.

By this time, the little woman who has nothing to do all day except feed the kids, wash clothes, make three meals, clean house, iron and talk to salesmen—decides that SHE will start the garden herself. As she has waited long enough for "Mr. Burbank" to get to work. She weeds the garden, cuts the grass, plants the seed, lifts the ground, jots that tale, lifts that load—until one fine day the back yard looks very beautiful with flowers blooming all over the place.

While she is down on her hands and knees, weeding, you can see that her "green thumb" is now red—red and sore from the excessive labor. Mr. "Gardener" can be seen leaning over the back fence telling his neighbor how hard he worked to make this back yard what it is today. On yes, you can write to him if you want any advice on gardening. His address is: City Hospital, Town. He is expected to recover from the horrible beating he received from the flat part of a shovel. And you can still see the marks on his face where the rake passed over his nose. See you next week H. H.

## York Springs Lions Hosts To Athletes

One hundred York Springs Lions and their guests gathered at the York Springs Fire Hall on Tuesday evening to honor 15 high school lettermen. A ham dinner was served by the Women's Auxiliary of the Fire Company.

President Jack Hershey introduced the toastmaster, James Hardy, who presented the speaker of the evening, Gettysburg College Coach John Yoricin. Mr. Yoricin stressed sportsmanship in school athletics and in later life.

The athletes present and the sport in which the letter was earned were Carson Spearman, Donald King, Charles Bream, John Cook, Lynn Golden, Danny Williams, Charles Koons, John Fair, Ronald Weigle. All played both basketball and baseball. Jay Snyder won his letter in basketball and Donald Day, Gary Miller, Robert Cashman, and Richard Griffin won theirs in baseball. Robert Smith was manager of both sports.

Preston Zerke, general chairman for the Lions Carnival which will be held on Friday and Saturday, June 19 and 20, reported that the plans for the affair will be announced soon.

# OIL LANDS BILL MAY GO TO WHITE HOUSE QUICKLY

WASHINGTON (AP)—The bill to give the states title to oil-laden submerged lands off their shores debated in the Senate for more than a month, may pick up marked speed and wind up within a few days on the desk of President Eisenhower, who has indicated he will sign it.

The measure which the Senate

passed, 56-35, late yesterday, after an acrimonious debate which started April 1, differs in one major respect and some minor ones from the measure approved earlier by the House.

But efforts were being made to persuade the House Republican leadership that the best course would be for the House to accept the Senate version, rather than risk a new Senate talkfest over a compromise.

No action was likely today, since the House scheduled only memorial services for members and former members who have died in the past year. But tomorrow, it is likely that the House will be asked

to accept the Senate measure. If it does so, the bill would go to the White House.

Before approving the bitterly fought legislation, subject of over 1 1/4 million words of floor debate in the longest Senate battle in 15 years, the Senate batted down every one of a dozen amendments offered by opponents.

They contended they were trying to cancel or modify what they termed a giant "giveaway" of federal property over which the Supreme Court has held that the federal government holds paramount rights. Sen. Douglas (D-Ill.), an opponent, said oil in the lands involved has been estimated by geologists to be worth from 50 to 300 billion dollars.

3 States Affected  
The bill was defended, on the other hand as a matter of justice to the states which, proponents said, had assumed for 150 years that they owned the submerged lands within their historic boundaries.

The states with proved offshore oil are California, Texas and Louisiana.  
The bill would recognize state ownership of all submerged lands within historic state boundaries. Although not spelled out, this has usually been taken to mean three miles except on the gulf coasts of Texas and Florida, which claim 10 1/2 miles.

Point Of Difference  
Another section would give the states the right to develop oil and other natural resources in the ocean bed if the courts should dispute the right of Congress to transfer title.

The federal government would have oil and other mineral rights in the continental shelf, the area running outward from state boundaries to where the ocean floor drops off sharply. In some places this is as far out as 300 miles.

The House bill provides that the secretary of the interior should administer the continental shelf; the Senate version makes no provision for its administration. The Senate plans to handle that issue in separate legislation.

It is believed that the last wild boars in Britain were killed about the 10th Century.

# GOVERNORS LIKED PARLEY

WASHINGTON (AP)—Washington officials speculated today that President Eisenhower, encouraged by reaction to his special conference of state governors, might call a second one before another year is up.

Both the President and the governors spoke of hopes for future conferences, but mentioned no dates.

There was some guessing also that the President may have helped himself politically. He appeared before the governors twice, had them to lunch, stressed solution of "too long neglected" problems with the states, and won the comment from some state executives, "He spoke our language."

Governors of both parties took the opportunity while here to discuss politics with presidential aides, members of the Cabinet including Atty. Gen. Brownell, and with Chairmen Leonard W. Hall and Stephen A. Mitchell of the Republican and Democratic National Committees, respectively.

# LOYALTY LAW RULED VALID

HARRISBURG (AP)—An opinion by a Philadelphia judge that Pennsylvania's loyalty oath law is constitutional brought the possibility in the General Assembly today of quick action on follow-up legislation.

Chairman Graybill Diehm (R-Lancaster) of the Senate State Government Committee said he will call a meeting this week to act on a bill permitting the commonwealth to discharge employees who refuse to testify in loyalty hearings on grounds that they will incriminate themselves.

The bill is sponsored by Sen. Albert R. Pechan (R-Armstrong) who also guided the loyalty oath law through its stormy path in the 1951 Legislature.

The Loyalty Oath Act was upheld yesterday by Philadelphia

**Taunts Reds**  
Lt. Gen. Glenn O. Barcus, commander of U. S. Fifth Air Force in Korea, was revealed as leader of a smashing May Day jet plane raid on Pyongyang, North Korean capital. He taunted the Reds from his plane on a radio channel they often monitor as last attacking plane left the area.

Judge Curtis Bok. The judge said he based his decision on the fact that the U. S. Supreme Court has ruled similar laws in other states constitutional.

"Were it not for the federal cases, we would unhesitatingly strike down this act," Bok said. "But we feel bound by the basic constitutional law as declared by the highest court in the country."

# MOVE TO CURB SOME IMPORTS IS DEVELOPING

WASHINGTON (AP)—A move to clamp specific legal curbs on imports of lead, zinc and oil moved into the forefront today in a developing congressional battle over foreign trade.

There were indications that sponsors of a general tightening of tariff and import quota barriers, who say they want to protect American industry from cheaper foreign competition, will push hard for specific proposals in those fields.

Prospects were more promising for a compromise on some other points in a bill by Rep. Richard M. Simpson (R-Pa.) to extend the Reciprocal Trade Act for one year beyond June 12 but write new restrictions in it. The act authorizes the President to negotiate with

other nations for a mutual lowering of tariffs.

**Hear McKay Today**  
Secretary of the Interior McKay was scheduled to testify before the House Ways and Means Committee today, followed by Secretary of Agriculture Benson.

Already, four high officials have pleaded for approval of President Eisenhower's request for a straight one-year extension of the present act, with no changes in policy, pending an exhaustive study by a special commission of lawmakers and presidential appointees.

The witnesses have been Secretary of State Dulles, Secretary of the Treasury Humphrey, Secretary of Commerce Weeks, and Mutual Security Administrator Harold E. Stassen.

The body of St. Nicholas (San Nicola) (the original Santa Claus) was stolen by Italian fishermen from Asia Minor in 1087 and is still in Bari, Italy.

# Mental Treatment Talk Is Ended

WASHINGTON (AP)—The Defense Department isn't talking about whose idea it was to announce mental treatment for returned prisoners of war thought to have been influenced by Communist indoctrination.

Pentagon officials let it be known yesterday they would answer no questions as to whether the military, or policy makers and psychological warfare experts in other government branches, originated the controversial program.

# OIL LANDS BILL MAY GO TO WHITE HOUSE QUICKLY

WASHINGTON (AP)—The bill to give the states title to oil-laden submerged lands off their shores, debated in the Senate for more than a month, may pick up marked speed and wind up within a few days on the desk of President Eisenhower, who has indicated he will sign it.

The measure which the Senate

passed, 56-35, late yesterday, after an acrimonious debate which started April 1, differs in one major respect and some minor ones from the measure approved earlier by the House.

But efforts were being made to persuade the House Republican leadership that the best course would be for the House to accept the Senate version, rather than risk a new Senate talkfest over a compromise.

No Action Today

No action was likely today, since the House scheduled only memorial services for members and former members who have died in the past year. But tomorrow, it is likely that the House will be asked

to accept the Senate measure. If it does so, the bill would go to the White House.

Before approving the bitterly fought legislation, subject of over 14 million words of floor debate in the longest Senate battle in 15 years, the Senate batted down every one of a dozen amendments offered by opponents.

They contended they were trying to cancel or modify what they termed a giant "giveaway" of federal property over which the Supreme Court has held that the federal government holds paramount rights. Sen. Douglas (D-Ill.), an opponent, said oil in the lands involved has been estimated by geologists to be worth from 50 to 300 billion dollars.

**3 States Affected**

The bill was defended, on the other hand as a matter of justice to the states which, proponents said, had assumed for 150 years that they owned the submerged lands within their historic boundaries.

The states with proved offshore oil are California, Texas and Louisiana.

The bill would recognize state ownership of all submerged lands within historic state boundaries. Although not spelled out, this has usually been taken to mean three miles except on the gulf coasts of Texas and Florida, which claim 10 1/2 miles.

**Point Of Difference**

Another section would give the states the right to develop oil and other natural resources in the ocean bed if the courts should dispute the right of Congress to transfer title.

The federal government would have oil and other mineral rights in the continental shelf, the area running outward from state boundaries to where the ocean floor drops off sharply. In some places this is as far out as 300 miles.

The House bill provides that the secretary of the interior should administer the continental shelf; the Senate version makes no provision for its administration. The Senate plans to handle that issue in separate legislation.

It is believed that the last wild boars in Britain were killed about the 16th Century.

# GOVERNORS LIKED PARLEY

WASHINGTON (AP)—Washington officials speculated today that President Eisenhower, encouraged by reaction to his special conference of state governors, might call a second one before another year is up.

Both the President and the governors spoke of hopes for future conferences, but mentioned no dates.

There was some guessing also that the President may have helped himself politically. He appeared before the governors twice, had them to lunch, stressed solution of "too long neglected" problems with the states, and won the comment from some state executives, "He spoke our language."

Governors of both parties took the opportunity while here to discuss politics with presidential aides, members of the Cabinet including Atty. Gen. Brownell, and with Chairman Leonard W. Hall and Stephen A. Mitchell of the Republican and Democratic National Committees, respectively.

**LOYALTY LAW RULED VALID**

HARRISBURG (AP)—An opinion by a Philadelphia judge that Pennsylvania's loyalty oath law is constitutional brought the possibility in the General Assembly today of quick action on follow-up legislation.

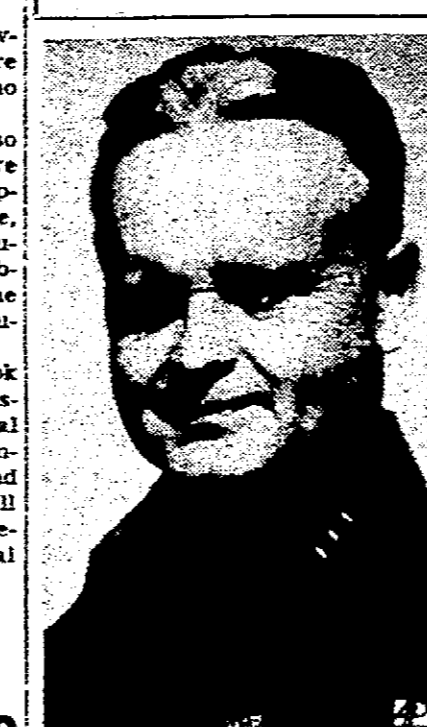

Chairman Graybill Diehm (R-Lancaster) of the Senate State Government Committee said he will call a meeting this week to act on a bill permitting the commonwealth to discharge employees who refuse to testify in loyalty hearings on grounds that they will incriminate themselves.

The bill is sponsored by Sen. Albert R. Pechan (R-Armstrong) who also guided the loyalty oath law through its stormy path in the 1951 Legislature.

The Loyalty Oath Act was upheld yesterday by Philadelphia

**Taunts Reds**

LT. Gen. Glenn O. Barnes, commander of U. S. Fifth Air Force in Korea, was revealed as leader of a smashing May Day jet plane raid on Pyongyang, North Korean capital. He taunted the Reds from his plane on a radio channel they often monitor as last attacking plane left the area.

Judge Curtis Bok. The judge said he based his decision on the fact that the U. S. Supreme Court has ruled similar laws in other states constitutional.

"Were it not for the federal cases, we would unhesitatingly strike down this act," Bok said. "But we feel bound by the basic constitutional law as declared by the highest court in the country."

# MOVE TO CURB SOME IMPORTS IS DEVELOPING

WASHINGTON (AP)—A move to clamp specific legal curbs on imports of lead, zinc and oil moved into the forefront today in a developing congressional battle over foreign trade.

There were indications that sponsors of a general tightening of tariff and import quota barriers, who say they want to protect American industry from cheaper foreign competition, will push hard for specific proposals in those fields.

Prospects were more promising for a compromise on some other points in a bill by Rep. Richard M. Simpson (R-Pa.) to extend the Reciprocity Trade Act for one year beyond June 12 but write new restrictions in it. The act authorizes the President to negotiate with

other nations for a mutual lowering of tariffs.

**Hear McKay Today**

Secretary of the Interior McKay was scheduled to testify before the House Ways and Means Committee today, followed by Secretary of Agriculture Benson.

Already, four high officials have pleaded for approval of President Eisenhower's request for a straight one-year extension of the present act, with no changes in policy, pending an exhaustive study by a special commission of lawmakers and presidential appointees.

The witnesses have been Secretary of State Dulles, Secretary of the Treasury Humphrey, Secretary of Commerce Weeks, and Mutual Security Administrator Harold E. Stassen.

The body of St. Nicholas (San Nicola) (the original Santa Claus) was stolen by Italian fishermen from Asia Minor in 1087 and is still in Bari, Italy.

# Mental Treatment Talk Is Ended

WASHINGTON (AP)—The Defense Department isn't talking about whose idea it was to announce mental treatment for returned prisoners of war thought to have been influenced by Communist indoctrination.

Pentagon officials let it be known yesterday they would answer no questions as to whether the military, or policy makers and psychological warfare experts in other government branches, originated the controversial program.

# "Zero" Progress On Armistice After Reds Reject Offer To Free 32,000 North Koreans

PANMUNJOM (AP)—A U. N. truce negotiator today said "zero" progress had been made toward a Korean armistice after the Reds rejected a proposal to free 32,000 North Korean prisoners who refuse to go home after a truce is signed.

The Reds again ignored the Allied nomination of Pakistan as neutral custodian of 48,500 prisoners who refuse to return to their Communist homelands.

Instead, Gen. Nam Il charged the Allied proposal was "void of reason" and "unworthy of refutation." He reiterated the Red demand that balking captives be shipped to a neutral nation and that the functions of the neutral be ironed out before deciding anything else.

# MAY LOWER AGE LIMIT FOR YOUTH TO START WORK

HARRISBURG (AP)—A bill to permit children to leave school at the age of 14 to work on farms and in the homes of their parents moved into the House today.

The measure was approved in the Senate by a 44-2 vote yesterday. Sens. Hugh J. McMenamin (D-Lackawanna) and William J. Lane (D-Washington) cast the dissenting votes.

Sponsored by Sens. Edward J. Kessler (R-Lancaster) and George N. Wade (R-Cumberland), the bill is designed to allow persons of the Amish religious sect to withdraw their children from school legally. Many have kept their children from attending classes after they reach 14 on grounds that further schooling is against their belief.

**Special Certification**  
Children leaving at the age of 14 would have to have special certification from local school officials. The measure would apply to all

questions the Communists posed Tuesday on how the neutral would operate. After Tuesday's meeting, Harrison called the Red questions "a negotiating smokescreen."

**"Void Of Reason"**  
Nam said the Allies "had taken a step backward" in Wednesday's proposal "in an attempt to discard entirely the principle on which both sides have already agreed"—that a neutral be named to handle all balking prisoners.

"This proposal is entirely void of reason," he continued, "and your side knows that our side would not consider it. Hence it is also unworthy of refutation."

Harrison said the Reds were simply using the same old stalling tactics.

"At the moment, I would say progress is zero," he said, but added he was not implying an armistice would not be reached. Negotiators will meet again at 11 a.m. Thursday.

# Car Crashes Into 5-foot Stone Wall

MARCUS HOOK, Pa. (AP)—An automobile, driven accidentally into a dead-end street, smashed into a five-foot stone wall near the Pennsylvania Railroad station here yesterday, injuring three Delaware men.

Injured were Edward Abel, 22, Garfield Park, skull fracture, reported in critical condition at Chester Hospital; Donald Carmine, 22 of New Castle, cuts of face and neck, and Donald Bevins, 22, Wilmington.

Police said Bevins, driving the car, apparently mistook the dead-end street for the highway.

# RCA-Victor To Vote On Strike

CAMDEN, N. J. (AP)—Some 7,200 employees of the RCA-Victor division plant here are scheduled to take a strike vote tomorrow.

The vote was authorized yesterday by the CIO-International Union of Electrical Workers' negotiating committee following the collapse of bargaining sessions on a wage re-opening clause in the existing contract, Daniel Arnold, IUE international representative said.

The union is asking, among other things, a general 10 per cent wage hike. Present wage scales were not revealed. The company had no immediate comment.

children in the commonwealth but it is geared particularly for the Amish.

Present state law requires school attendance until the age of 17. Pupils may leave at 16, however, with an employment permit. They may leave at 15 in some cases with approval of local authorities and the State Department of Public Instruction.

# HOUSE MEASURE PUTS STEEL IN NARCOTICS BILL

HARRISBURG (AP)—Persons who illegally possess or sell narcotics would be subject to greater penalties under a House-passed bill that went to the Senate today.

The House approved the measure last night, 185-22.

"This bill would make Pennsylvania law very similar to federal regulations and is along the lines that the American Legion suggested at its last national convention," said Rep. LeRoy A. Weidner (R-Berks), who introduced the legislation.

The bill was amended yesterday to include possession of illegal drugs, set a minimum prison sentence of two years and change the maximum fine for habitual offenders from \$6,000 to \$7,500. Amendments also reduced the maximum prison term for habitual offenders from life to 30 years.

**Stiff Penalties**  
First offenders would be fined \$2,000 and receive prison terms of two to five years. Law now calls for a \$2,000 fine and a prison term up to five years.

# "Zero" Progress On Armistice After Reds Reject Offer To Free 32,000 North Koreans

PANMUNJOM (U.S.A. N. truce negotiator today said "zero" progress had been made toward a Korean armistice after the Reds rejected a proposal to free 32,000 North Korean prisoners who refuse to go home after a truce is signed.

The Reds again ignored the Allied nomination of Pakistan as neutral custodian of 48,500 prisoners who refuse to return to their Communist homelands.

Instead, Gen. Nam Il charged the Allied proposal was "void of reason" and "unworthy of refutation." He reiterated the Red demand that balking captives be shipped to a neutral nation and that the functions of the neutral be ironed out before deciding anything else.

# MAY LOWER AGE LIMIT FOR YOUTH TO START WORK

HARRISBURG (U.S.A.)—A bill to permit children to leave school at the age of 14 to work on farms and in the homes of their parents moved into the House today.

The measure was approved in the Senate by a 44-2 vote yesterday. Sens. Hugh J. McManamin (D-Lackawanna) and William J. Lane (D-Washington) cast the dissenting votes.

Sponsored by Sens. Edward J. Kessler (R-Lancaster) and George N. Wade (R-Cumberland), the bill is designed to allow persons of the Amish religious sect to withdraw their children from school legally. Many have kept their children from attending classes after they reach 14 on grounds that further schooling is against their belief.

**Special Certification**  
Children leaving at the age of 14 would have to have special certification from local school officials. The measure would apply to all

Questions the Communists posed Tuesday on how the neutral would operate. After Tuesday's meeting, Harrison called the Red questions "a negotiating smokescreen."

**"Void Of Reason"**  
Nam said the Allies "had taken a step backward" in Wednesday's proposal "in an attempt to discard entirely the principle on which both sides have already agreed"—that a neutral be named to handle all balking prisoners.

"This proposal is entirely void of reason," he continued, "and your side knows that our side would not consider it. Hence it is also unworthy of refutation."

Harrison said the Reds were simply using the same old stalling tactics.

"At the moment, I would say progress is zero," he said, but added he was not implying an armistice would not be reached.

Negotiators will meet again at 11 a.m. Thursday.

# Car Crashes Into 5-foot Stone Wall

MARCUS HOOK, Pa. (U.S.A.)—An automobile, driven accidentally into a dead-end street, smashed into a five-foot stone wall near the Pennsylvania Railroad station here yesterday, injuring three Delaware men.

Injured were Edward Abel, 22, Garfield Park, skull fracture, reported in critical condition at Chester Hospital; Donald Carmine, 22 of New Castle, cuts of face and neck, and Donald Bevins, 22, Wilmington.

Police said Bevins, driving the car, apparently mistook the dead-end street for the highway.

# RCA-Victor To Vote On Strike

CAMDEN, N. J. (U.S.A.)—Some 1,200 employees of the RCA-Victor division plant here are scheduled to take a strike vote tomorrow.

The vote was authorized yesterday by the CIO-International Union of Electrical Workers' negotiating committee following the collapse of bargaining sessions on a wage reopening clause in the existing contract, Daniel Arnold, IUE international representative said.

The union is asking, among other things, a general 10 per cent wage hike. Present wage scales were not revealed. The company had no immediate comment.

Present state law requires school attendance until the age of 17. Pupils may leave at 16, however, with an employment permit. They may leave at 15 in some cases with approval of local authorities and the State Department of Public Instruction.

# HOUSE MEASURE PUTS TEETH IN NARCOTICS BILL

HARRISBURG (U.S.A.)—Persons who illegally possess or sell narcotics would be subject to greater penalties under a House-passed bill that went to the Senate today.

The House approved the measure last night, 183-22.

"This bill would make Pennsylvania law very similar to federal regulations and is along the lines that the American Legion suggested at its last national convention," said Rep. LeRoy A. Weidner (R-Berks), who introduced the legislation.

The bill was amended yesterday to include possession of illegal drugs, set a minimum prison sentence of two years and change the maximum fine for habitual offenders from \$6,000 to \$7,500. Amendments also reduced the maximum prison term for habitual offenders from life to 30 years.

**Stiff Penalties**  
First offenders would be fined \$2,000 and receive prison terms of two to five years. Law now calls for a \$2,000 fine and a prison term up to five years.

# SEEK TO HAVE CLOSING OF GAP RECONSIDERED

HARRISBURG (AP)—A resolution asking the Department of Defense to reconsider closing down its Army Training Center at nearby Indiantown Gap went to the House Tuesday.

Introduced by Sen. Paul L. Wagner (R-Schuykill) the resolution won unanimous approval in the Senate on Monday after some debate over parliamentary procedure. If passed by the House, the resolution will be sent to Washington.

"If the training center is abandoned it should be only after the federal government has been alerted to the tremendous economic impact it will have on counties surrounding Indiantown Gap," Wagner told the Senate.

He pointed out that hundreds of civilian workers in nearby communities depend on the military reservation for their living.

Sen. Elmer Holland (D-Allegheny) sprang to support of the resolution by charging that the proposed closing down of the base, where the U. S. Fifth Division has trained troops for Korea since 1951, would be "false economy."

"This is in line with the so-called retrenchment program of the Eisenhower administration," Holland asserted. "I don't see how we're going to train men if we're going to close down these bases."

"It also means throwing some 2,200 people out of civilian jobs at Indiantown Gap," Holland added. "This is not economy—it's just plain damn foolishness."

**STRIKES PARKED CAR**

James A. "Jack" Knox, South St., reported to borough police at 1 a. m. on Tuesday that his station wagon had struck a parked car owned by John Hoffman, 313 S. Washington St. on that street. Damage totaled \$65.

**Penologists At

NORRISTOWN, Pa. (AP)—Representatives from 24 penal institutions and state hospitals in Eastern Pennsylvania attended a special civil defense class here Monday.

They were instructed in selecting shelter areas, rescue and fire problems, emergency welfare, evacuation, mass care centers, mass feeding, stockpiling supplies and emergency medical problems.

Represented were these state hospitals: Ashland, Bloomsburg, Coaldale, Locust Mountain at Shenandoah, Nanticoke, Phillipsburg, Scranton, Shamokin, Allentown, Danville, Fairview at Waymart, Harrisburg, Norristown, Philadelphia, Wernersville, Clarks Summit, Hollidaysburg and Retreat.

Representatives also attended from the Pennsylvania Institute for Defective Delinquents, Huntingdon; Eastern State Penitentiary at Graterford; New Pennsylvania Industrial School, Camp Hill; Pennhurst State School, Spring City, and Selinsgrove State Colony.

**TEEN  
TALK**  
By VIVIAN BROWN

The Associated Press

Spring may not be far away—but don't wait until you see the crocus before you send your Christmas thank-you notes.

You may not have liked the gift for which you must thank the giver. Aunt Hattie has a way of picking a dictionary or a knitted scarf for you when you've been hoping for a beautiful leather belt and handbag. But you must write your thank-you note whether the gift is a favorite or not.

Here are some rules to keep in mind when writing these notes:

1. Stationary should be in good taste. White, gray or pastels are preferred. The paper can be initialed, printed with your name, decorated with flowers or other motifs. But bright colors and inks this type of social note, although there is no objection to using gay paper and brilliant ink for party invitations or just-for-fun correspondence.
2. No matter how many notes you must write, don't substitute thank-you cards for them. It is a cold way of acknowledging something that the sender might have selected with great care. The thank-you card is fine if for some reason you just don't have the time to write and it is a question of skipping the matter entirely. There is hardly ever a good excuse for sluffing off a gift in that manner, however.
3. Just because you must ac-

knowledge gifts you don't like, don't sound phony and everly-effusive. There is a nice, bright honest way of acknowledging the gift you don't like without insulting the sender. Here's an example:

Dear Aunt Hattie,

"The dictionary you sent me is a perfect gift for a poor speller like me. It came in the nick of time as I am working on an involved essay at the moment. It should be more readable with all the words spelled right, thanks to you."

4. If a young man you see often gives you a gift, then it is not necessary to write him a note, unless you want to tell him how much you are enjoying his remembrance. Of course it goes without saying that if your gift from a boy friend comes through the mail that you will acknowledge it promptly and appreciatively.

**Appreciative Note**

5. Here is an example of a note thanking the giver for something you truly like:

"I just can't wait until I use my wonderful new skis or ice-skates I sure am hoping for a snowy winter so that I can keep them busy every minute. Just as soon as I can get to it, I am planning to have them initialed. It was a surprise to receive them

and grand of you to remember me."

6. If you received a present from a beau and your parents do not approve of it, and request that you return it, do so at once. A young boy acquaintance is likely to give a gift that is not in particularly good taste, considering it is for a casual friend. Gifts of jewelry, lingerie and other personal items — except perfume — are marked taboo by most parents. In that case, do not send a wordy, lengthy explanation or pass on a sharp rebuke to him. Your letter could be something like this:

Dear Jim,

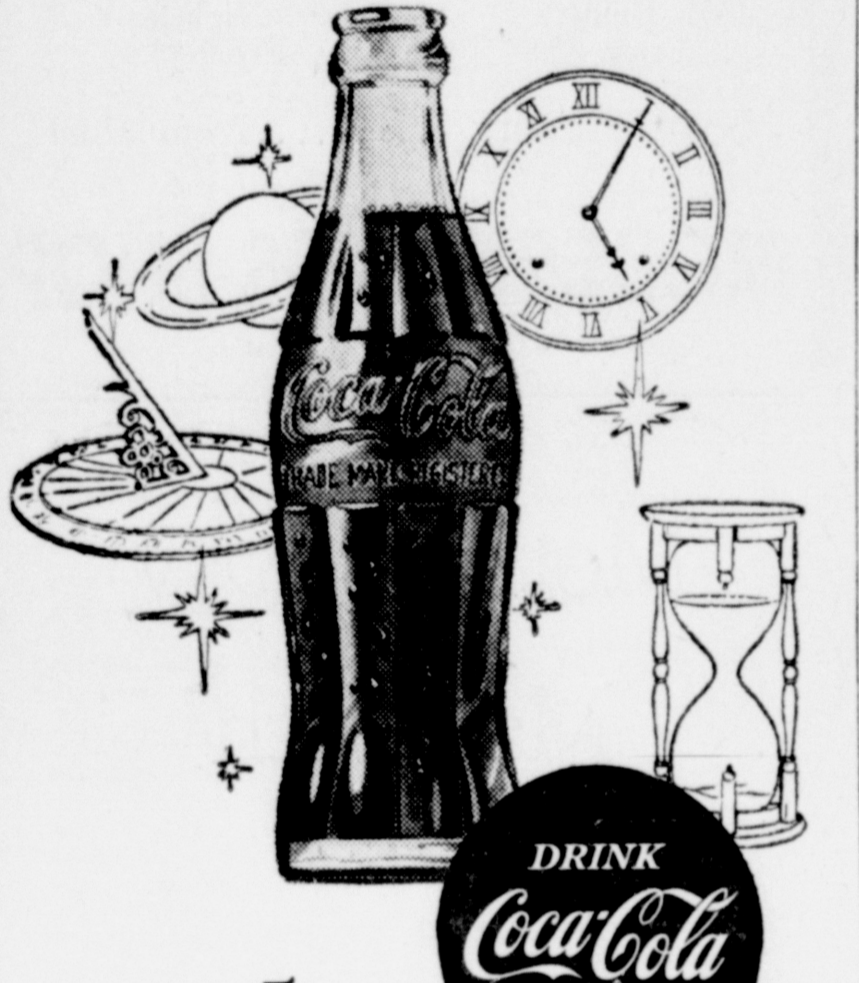

"It was very thoughtful of you to remember me at Christmas. My parents think that this gift is far too elaborate (or too personal) for

me to accept, but thank you for your kindness."

7. You might be tempted to write a sarcastic letter to some member of your family who has picked the all-wrong gift for you. Please don't. Or if you do, put it away for several days. Re-read it and the chances are that you will not send it.

**DUFF DEPLORES  
RED TAINT ON  
U.S. PRISONERS**

WASHINGTON (AP)—Sen. Duff (R-Pa.) expressed concern Tuesday that some implication of Communist taint might be cast unjustly on a number of returned prisoners of war.

The men in question are members of a group of 20 recovered in the Korea exchange and flown secretly to Valley Forge (Pa.) Military Hospital near Philadelphia.

Duff, a member of the Armed Services Committee, said in an interview he thought "these boys ought to be cleared if they have been treated unjustly."

The Army previously had announced that a "small group" of Americans who "have shown symptoms of having succumbed to Communist indoctrination" were being taken to Valley Forge where psychiatric treatment was available.

**Deny Charges**

But 10 of the men bitterly denied at a news conference Sunday that they had fallen for any Red doctrines while held captive. Some complained they had received a "dirty deal." They said they had been labelled Communist sympathizers and were "insulted."

Army spokesmen pointed out that most patients being sent to Valley Forge would be there for ordinary medical treatment only, and that no one in any case would be forced to undergo psychiatric treatment nor kept from going home if his physical condition permitted it.

Mix cream style cottage cheese with a little finely grated onion and use to stuff the cavities of avocado pear halves; garnish with strips of pimiento and serve with a tart French dressing for lunch.
